

Andy Wilkin
Project Manager

As a Project Manager with AccuTech Construction, Andy's focus is the owner's complete satisfaction with every project we undertakes. As a 30 year industry veteran, he has constructed not only multiple building types but has designed their mechanical systems and operated them as the owner. His role as a facility manager for a large international organization has required him to be the central figure responsible for the delivery of Class 10 clean rooms and other highly technical spaces.

Andy is driven by the dynamics how things work and come together, as evidenced by three recent clean room projects, which required an intense end-of-project certification process. With a clear and focused personality, he just gets things done right no matter how stringent the design or operating perimeters may be.

He takes personal pride in engaging with owners, sub-contractors and even technical scientists. In his spare time, Andy is a competitive race team owner and driver within the SCCA.

Following 31 Years in the Construction Industry working on various projects in Central Florida as a Mechanical Engineer, Owners Rep and GC, Andy has displayed proven skills and experience to perform:

- Constructability Reviews
- Value Engineering
- Scheduling
- Cost Estimating
- Construction Services

QUICK FACTS:

Project Role:
Project Manager

In Construction Industry Since: 1987

With AccuTech Since:
2014

Education:
B.S. Mechanical Engineering
University of Florida

Certifications:
Occupational Safety and Health Standards for the Construction Industry – U.S. Department of Labor, Occupational Safety and Health Administration, since 2015

PROJECT EXPERIENCE

DataSite – Phase IV

Data Center Expansion
Orlando, Florida – .5 Million

Duke Energy

Operations Center
Clearwater, Florida – .2 Million

DataSite – Client 44

Data Center Expansion
Orlando, Florida – .5 Million

Surface Crafters

Design/Build/Operator
Manufacturing Facility
Holly Hill, Florida – Undisclosed

TriQuint Semiconductor

Facility Manager
70,000 sf Micro-Electronics Addition
Apopka, Florida – 10 Million

TriQuint Semiconductor

Facility Manager
30,000 sf Micro-Electronics
Heredia, Costa Rica – 1.2 Million

TriQuint Semiconductor

Facility Manager
10,000 sf Micro-Electronics
Tianjin, China – .4 Million

TriQuint Semiconductor

Mechanical Engineer
Research & Development
Apopka, Florida – Undisclosed

AAI/SMI Corp.

Sr. Mechanical Engineer
Flight Simulator Designer
Ocoee, Florida – Undisclosed

ECC International Corp.

Mechanical Design Engineer
C-17 Engine Cowling Program
Orlando, Florida – Undisclosed

Metric Systems Corp.

Mechanical Design Engineer
KC-10 On-Board Loader Program
Ft. Walton Beach, Florida – Undisclosed

PALL Pneumatic Products

Mechanical Engineer
Field Oxygen Generation Unit
Ocala, Florida – Undisclosed
